4.19 Internet Use

TERMS AND CONDITIONS FOR USE OF INTERNET

Please read the following carefully before signing this document. This is a legally binding document and is a part of the policies of Northwest Technology Center.

Internet access is now available to students and teachers in the Oklahoma public school districts. We are very pleased to bring this access to Oklahoma and believe the Internet offers vast, diverse and unique resources to both students and teachers. Our goal in providing this service to teachers and students is to promote educational excellence in the Oklahoma public schools by facilitating resource sharing, innovation and communication.

The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Students and teachers have access to:

- ✓ Electronic mail communication with people all over the world
- ✓ Information and news
- ✓ Public domain and shareware of all types
- ✓ Discussion groups on a plethora of topics ranging from diverse cultures to the environment to music to politics
- ✓ Access to many university catalogs

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of the school setting. Northwest Technology Center and the Oklahoma State Department of Education have taken available precautions to restrict access to inappropriate materials. However, on a global network it is impossible to control all materials and an industrious user may discover inappropriate information. Internet access is coordinated through a complex association of government agencies, and regional and state networks. In addition, the smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided here so that you are aware of the responsibilities you are about to acquire. In general this requires efficient, ethical and legal utilization of the network resources. If a Northwest Technology Center user violates any of these provisions, their access will be terminated and future access will be denied. Additionally, students who violate this agreement will face disciplinary consequences including the possibility of suspension or removal from school. Consequences shall be consistent with the behavior and conduct policies of Northwest Technology Center applicable to students. Likewise, teachers determined to be in violation of this policy may face adverse employment penalties including the possibility of non-reemployment or dismissal. The signature(s) at the end of this document is (are) legally binding and indicates the party(ies) who signed has(have) read the terms and conditions carefully and understand(s) their significance.
